CITIZENS HISTORICAL ASSOCIATION  
Biographical Sketches of Muskegon Citizens

Contributed by William Moore

Between 1936 and 1941 the Citizens Historical Association of Indianapolis typed genealogical and biographical information for many leading members of the Muskegon business community, physicians, attorneys, public officials, etc. These are in three volumes in the Muskegon History Room at Hackley Public Library. There are many references to other publications for further research. Each sketch takes from one to three pages and mentions ancestors, children, dates, places - much valuable information for you if one of these people is an ancestor or relative. The following is an index of those names and their professional or business affiliation.

These volumes are available to the public or may be researched and/or copied by a member of our local society contacted through the corresponding secretary in exchange for a donation to the society plus reimbursement for costs.
